- Using abacus for numbers and counting

UNIT – 2

(10 July, 2026 - 24 August,2026)

Book : Mathematics Buzz !!

Ch -2 Addition

Ch-3-Subtraction

Activities:

- Number scale is drawn on floor to better comprehend the concept of addition and subtraction among students.
- Giving numbers to makes addition and subtraction facts
- Counting box or UNO for addition and subtraction

UNIT – 3
(25 August, 2026 - 09 October ,2026)

Book: Mathematics Buzz !!

Ch-4 Multiplication

Ch-7 Money

Activities:

- Through play way method , we will distribute the objects among students to show them equal distribution and develop clarity of division
- Repeated addition of pencils among students to convey the concept of multiplication
- Students will do market play and use fake paper notes and real coins to get the understanding of concept money

Unit – 4
(12 October, 2026 - 2 December, 2026)

Book: Mathematics Buzz !!

Ch-5 Division

Ch-6 Fractions

Activities

- Through play way method , we will distribute the objects among students to show them equal distribution and develop clarity of division
- Students will ate their lunch from which we can teach them half as well as whole concept

Unit – 5

(3 December, 2026 - 28 January,2027)

Book: Mathematics Buzz !!

Ch-8 Measurement

Ch-9 Time and Calendar

Activities:

- Through Play way Method, We will make them understand non – measuring units such as (Cubit, Hand span and Foot span).
- Children will make Clock and will show the concept of Half past, O'clock etc
- Role play method of market for measurement concept

Unit -6

(29 January 2027 - 12 March 2027)

Book: Mathematics Buzz !!

Ch- 10 Shapes and
Patterns

Ch- 11 Data Handling

Activities:

- Observe the different fruits/vegetables kept on table, segregate them , count them and draw the pictograph.
- Students will bring objects from home of different shapes and interpret their sides and corners.
